

The following data was compiled in response to an information request from one of our funded programs. We decided to provide the information for all VAPs. As a point of clarification, the amount of funding OVS awards to any victim or claimant is in no way a reflection of any VAP's performance. Also, as calendar year 2014 was a transitional year between contracts, the numbers for 2014 may not reflect a full, 12 month period for some programs.
